A VERY FAVORABLE PROSPECT.

Speculation in Abeyance During the Big

BARRETT'S SUGAR TRUST DECISION

Railroad Meeting.

Will Have No Permanent Effect, According to R. G. Dun & Co.'s Beriew.

Reports to Bradstreet's show the trade is generally dull. This, however, is natural at this season, and an improvement is expected. The railroad meeting quieted speculation. Wheat and grain are somewhat lower. R. G. Dun & Co do not look for any marked decrease in the price of sugar.

ISPECIAL TELEGRAM TO THE DISPATCH.1 NEW YORK, January 11. - Although special telegrams to Bradstreet's from leading trade centers do not indicate any very general improvement in business, dullness is the natural accompaniment of annual stock-taking, and the reaction from the petoo early for widespread or decided activity to appear, but at New Orleans there has been a marked increase in the movement of staple goods to the interior as well as of cotton to market.

At Burlington commercial travelers are down yesterday, and will be idle several days starting out, and at Boston some revival in several lines is already apparent, notably in the middle of the month. Business is only fairly active at the Northwest, and has been checked at Kansas City and St. Joseph by mild weather. Reports from the white pine districts tributary to Chicago indicate a shortage in the log crop of 1889. Industrial conditions are less satisfactors than last weak as strikes have atisfactory than last week, as strikes have been quite numerous, embracing a large num-ber of employes. Wage disputes are becoming more prominent.

SLIGHT IMPROVEMENT. Stock speculation was quiescent while the great railroad settlement was in progress. Prices are improving a little, but public opinion seems to depend upon a fuller development of the effect and probable success of the com-pact. Bonds are firm and higher, though anticipated defaults caused declines in a few classes. Money at New York is easier. Call loans 3@4 per cent. Foreign exchange is dull

loans 364 per cent. Foreign exchange is dull and lower on the easy money market at London and the lowering of the Bank of England rate. Demand sterling, \$4.88\(\)_604 85\(\)_6. Hank clearings at 40 cities reporting to Brodstree's this week, aggregate \$1,089.296,000, against \$1,104,107,362 last week, and \$290,624,306 in the second week of January, 1888. This shows a gain of 9.7 per cent over the record a year age, but a decline of 1.3 per cent from last week. The wheat and flour markets have been duller, with reactions in price this week. week the week and hour markets have been duller, with reactions in price this week, wheat declining 25c per barrel and flour 56 loc per barrel. The exports, both coasts, have equaled 144,388 barrels of flour and 1,031,139 bushels of wheat, the equivalent of 1,032,385 bushels of wheat last week and 1,857,308 bushels in the like week in 1988. There were but 54,700 bushels from flour Atlantic ways this week and approximately flour and the second of els from four Atlantic ports this week, against over 97,000 bushels last week.

Pacific coast shipments for the week ended January 10 aggregated 978,451 bushels, and in the preceding week only 511,237 bushels, and 250,942 bushels in the second week of January, 1888. Stocks of wheat at points of accumula-tion in Australia, as cabled Bradstreets, ag-gregated 3,123,000 bushels on January 1. At the interior, in farmers and dealers hands, there are additional, but not large stocks of old wheat. The crop now being harvested in Australia will probably not vield more than 24,000,000 bushels, sufficient only for colonial consumption and seed.

DECLINE IN SUGAR. Raw sugars close at New York and San Francisco 1-1963/c lower on bearish foreign advices fand heavy receipts on the Pacific coast) with light demand, and only fairly free meltings in this country. Brazilian advices are for 6,000 tons shortage in experts against last year. Refined has been 100 to lower, closing steady.
At New Orleans, however, sugar prices are firmer. Somewhat heavy arrivals of Rio and Santos served to offset the bullish tendency in Santos served to offset the bulliah tendency in coffee prices, based on advices from most for-eign markets. The decline has been from 10

Cotton mill agents report a slightly improved demand for goods at firm prices. Leading lines of fancy prints range at last season's prices. A tendency to curtail discounts in ginghams is noticeable, and this feature tends to delay operations. Print cloth is taken as fast as offered, but prices are unchanged.
Woolen goods note an increased inquiry. The season's prices for easimeres are not yet fixed. Higher prices for heavy weight goods tend to render business slow. Raw wool is in moderate demand and firm, with stock small. The feature in the iron trade is the cut of half cent | systems. per pound, or \$11 20 per ton, in beams, with the option of either iron or steel, to stimulate consumption. Steel rail mills have but little work; not a single heavy order this week. Lake Superior ore looks weak.

Business failures reported to Bradstreet's number 337 in the United States this week, against 285 last week and 312 this week last year. Canada had 28 this week, against 22 last week. The total of failures in the United States January I to date is 462, against 605 two his rounds at 2:40 yesterday morning, was struck

BUSINESS NOT BRISK.

But the Feeling of Confidence in the Financial Future is Unshaken.

New York, January 11 .- R. G. Dun & Co.'s weekly review of trade says: Not the least important feature of the railroad presidents' arrangement is the fact that bankers of large influence commit themselves, in case the compact is signed, to refuse their countenance or aid to the negotiation of securities for new competing lines or extensions, where either of the railroads agreeing to the compact objects. The report of the Inter-State Commission shows that on 120, 000 miles of road, for the year ending June 30, 1888, the stock and bonds were of equal par value, but on 52% per cent of the stock no divithan 4 per cent was 63 per cent of the stock and

than 4 per cent was to per cent of the stock and 21 per cent of the bonds.

The decision of Judge Barrett, holding that the Sugar Trust is illegal, is of very large importance. No change occurs as vet in prices of sugars, and it may not be premature to suppose that other forms of agreement, escaping the legal objections found in this case, may not contract the control of the stock of the stoc tinue to control markets. There are signs in Europe that the Copper Trust is trying to cast upon the public part of its accumulating lead through the organization of a copper bank. Speculation in hogs and lard has tended toward lower finances.

Another fall in wheat has occurred, the price

closing 1%c lower for the week, exports being still arrested. Corn fell 1%c, and oazs advanced nearly lo, with oil practically unchanged and cotton a shade stronger.

The weekly output of anthracite and coke iron January 1 was 142,452 tous, against 156,627 a month ago and 19 307 month ago, and 121,307 a year ago. For the past year the production is estimated at 6,500,000 gross tons. The enormous supply makes the market duller than usual for the season. In the rail market no change is reported. The de-mand for bar iron is somewhat improved and 1.80 to 1.85 is quoted for the best refined. The coal trade is very dull, and the restriction of cutput is now so far enforced that the record for the last week of December was only 474.

In the wool trade the demand is not large, but prices are firmly held in the belief that stocks are scarce. Cotton goods are in better demand at steady or improving prices. Sales in speculative markets have been small during the past week, and the general tendency of prices for commodities as a whole is still downward. Reports from interior towns show that failures continue numerous and the complaints of ordinary collections frequent. But there is hardly any complaint of monetary scarcity. The Tronsury holds about \$5.100,000 less cash than it did a week ago, and at present apprehensions of gold exports are lessened by heavy exports of merchandise. The money market here is easier and rates lower than a week ago, and the feeling of confidence in the financial and commercial future is still unshaken. The failures during the last seven days num-ber 381, as against 387 last week and 229 the week previous. For the corresponding week of last year the figures were 279.

Universal Excitement!

GENERAL REJOICING!

CAUSED BY

GREATEST OF ALL COMMERCIAL ENTERPRISES

From far and near, from busy cities and quiet hamlets, people of all conditions and classes of life have flocked in their thousands in order to participate in the benefits derivable from our great, bold and resolute plan to advertise ourselves as the

LOWEST PRICED, MOST LIBERAL AND

Most Progressive House on the American Continent.

Notwithstanding the fact that we have, as is our custom this time o the year, marked down the prices in every department-are selling fine goods at prices which other dealers charge for goods of but very inferior quality-yet we positively

Give Away Free, Without Price,

EVERY TWENTIETH SALE MADE IN ANY DEPARTMENT.

No distinction is made between Rich or Poor, Merchant or Mechanic, Clergyman or

Linens by the yard at 15c to \$3 50, Nor yet are the goods given away confined to any particular department, They include Overcoats, Suits, Pants, Shoes, Neckwear, Underwear, Hats. Shirts, Waists, Hosiery, Gloves, Caps, Shoes, Slippers, etc., etc.

Do You Know Any of These? Do You Recognize Any Name?

The names given below are but the first hundred of those who have been among the lucky ones the past week and got their purchases for nothing. Hundreds of others were equally lucky, but we haven't space

to give names of all. Suit underwear, Mrs. Fitzsimmons, Ferry st. \$10 overcoat, Parkes Scandrolic, Watson town, Ligonier county.
